Says Men Were Not Surprised

### HOTEL BRADY

250 ROOMS

TULSA,

Only hotel in Oklahoma with its own light, ice and cold storage plants, artesian wells and gardens.

(SPECIAL ANNOUNCEMENT.)

The business of the Brady Hotel, which for the entire ten years of its history, has been operated by lessees or managers, has grown to such proportions as to require the entire time and personal attention of Tate Brady, who for the first time, takes charge January I, 1914.

The finest elevator system, made by the Otis Co., has just been installed and \$250,000 will be expended in improvements at once. I am proud of the fact that while more than a half cullion dollars was lost by the public in taking stock in the Hotels Ione, Skirvia, Lowen, Busby and Hotel Tulsa, that the Brady represents the confidence of one man in magnificent Tulsa. That its success is not alone, because it is located near and in walking distance from the Frisco, Santa Fe and A. V. & W. and Katy deputs, where 95 per cent of the travel is, but because it has never overcharged the public.

## HOTEL BRADY

TATE BRADY, SOLE PROPRIETOR.

This is the original Tate Brady store, established September 7, 1890, on the rite of the present blood. From here I have seen Tulsa grow from an Indian village of less than 100 souls to a city of 40,000, during which time I have retailed two million dollars worth of merchandise, mined and shipped 4,000 tons of coal, done more than seven hundred thousand dollars of hotel. business, employed from 50 to 130 people at all times and puid out \$600,000 for material and labor in Tulsa and Tulsa county
